## THE IDEAL FAMILY LAXATIVE.

Is one that can be used by the entire family, young and old, weak and strong, without any danger of harmful effects. It should have properties which insure the same dose, always having the same effect, otherwise the quantity will have to be increased and finally lose its effect altogether. These properties can be found in that old family remedy, Brandreth's Pills, because its ingredients are of the purest herbal extracts, and every pill is kept for three years before being sold, which allows them to mellow. We do not believe there is a laxative on the market that is so carefully made.

Brandreth's Pills are the same fine laxative tonic pill your grandfathers used. They have been in use for over a century and are sold in every drug and medicine store, either plain or sugar-coated.

"It will be remembered as stated in these columns, Mr. Rice from back of Ashland, was traveling in a box car with his farming implements, expecting to locate in the West, and then have his family to follow him. The barking of dogs in the car, while standing in the Russell yards, drew the attention of some men, who upon examining the car, found that it contained a dead man. An inquest was held over the remains by a Russell jury, who pronounced it a mystery, whether he committed suicide or was murdered. A large sum of money was found on his person, but the relatives claim he was foully dealt with for revenge."

This Mr. Rice was from Carter county and he was a nephew of Dr. S. Rice, of Ashland.
